PROFESSIONAL SUMMARY

Motivated CSE undergraduate (2023–2027) with hands-on experience building enterprise-grade web platforms, RESTful APIs, and AI-integrated systems. Proficient in React.js, Java, Python, and Firebase, with exposure to Generative AI, blockchain verification, and scalable architecture. Proven through hackathon wins, internship contributions, and 7+ deployed projects.

EDUCATION

Qualification	Institution	Board / Stream	Year
B.Tech – CSE	Kishkinda University	Computer Science & Engineering	2023 – 2027
12th / PUC	Best PU College	Science (PCM / PCMB)	2023
10th / SSLC	Nandi High School	Karnataka State Board	2021

TECHNICAL SKILLS

Languages	C, Java, Python
Frontend	HTML5, CSS3, JavaScript (ES6+), React.js
Backend & DB	RESTful APIs, DBMS fundamentals, Firebase Firestore, Mongo DB, Node+Express.js
Tools & DevOps	Git, VS Code, Agile/Scrum, PWA
AI & Emerging	Generative AI, Prompt Engineering, AI-assisted development

EXPERIENCE

Backend Developer Intern — Frookoon	Jun 2025 – Aug 2025
- Built and maintained RESTful API endpoints, improving backend response consistency and reducing data-handling errors. - Integrated database modules and optimized queries, contributing to faster data retrieval across the platform.	

PROJECTS

RailTrace – Railway Asset Management <i>Java, Firebase, AI (Gemini), Blockchain</i>	GitHub
- Architected multi-role RBAC system (Admin, Inspector, Manufacturer) with Firebase Firestore real-time streaming and blockchain-backed audit trails. - Integrated Gemini AI analytics and QR-based product verification with PWA mobile support; won 1st Prize at SIH Internal Hackathon (BITM).	
MedFlare – Medical Digitalization Platform <i>React.js, HTML, CSS, JavaScript</i>	GitHub
Built responsive, component-based frontend for centralized patient record management, improving workflow efficiency and data accessibility.	
JOE – Cafeteria Automation System <i>React.js, JavaScript, DBMS</i>	GitHub
Engineered scalable ordering workflow with frontend architecture and backend integration planning to eliminate queue inefficiencies.	
Frookoon – Quick-Commerce Grocery Platform <i>React.js, HTML, CSS, JavaScript</i>	GitHub
Developed responsive, component-based UI prototype with structured state management, ready for backend integration and production scale.	

ACHIEVEMENTS & ACTIVITIES

- SIH Internal Hackathon (BITM):** 1st Prize for RailTrace Railway Management System.
- GDG Hubli 2K25:** Top 15 finish among competing teams at Google Developer Group hackathon.
- BIT Ideathon & Xcelerate:** Participated in Idetattva and Xcelerate innovation competitions at Bangalore Institute of Technology.
- Campus Internship – Python & Green AI Skills:** Completed structured coursework in Python programming and AI applications.
