

D KOUSHIK

B.Tech Computer Science Engineering Student

koushikabhi.dev@gmail.com | +91 9110405638 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, CSE) with a strong foundation in HTML, CSS, JavaScript, Java, Python, Data Structures and Algorithms (DSA), and Object-Oriented Programming (OOP). Hands-on experience in frontend development, responsive web design, and UI/UX design, including applied React (React.js) and TypeScript work through collaborative team projects. Skilled in AI-assisted development tools and prompt engineering to accelerate implementation. Detail-oriented learner focused on clean, functional code, team collaboration, and usable frontend applications.

Frontend Development, UI/UX Design, User Interface (UI) Design, User Experience (UX) Design, Responsive Web Design, Problem Solving, Software Development, Team Collaboration

EDUCATION

Kishkinda University — B.Tech, Computer Science and Engineering (CSE) 2023 - 2027 | CGPA: 8.02

Relevant Coursework: DSA, OOP, DBMS Fundamentals, Web Development

Best PU College — 12th Standard (PCMB) — 67% 2023

Nandi High School — 10th Standard, Karnataka State Board — 83.33% 2021

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Web Technologies: HTML5, CSS3, JavaScript, React (React.js), TypeScript — applied via AI-assisted development

Computer Science Fundamentals: DSA (Arrays, Strings, ArrayList), OOP, DBMS basics

UI/UX: Responsive Web Design, UI/UX Design fundamentals, Design Systems (basics), Wireframing fundamentals

Tools and Platforms: Git, GitHub, VS Code

AI Tools: ChatGPT, Claude Code, Cursor IDE, Antigravity IDE, Lovable, Gemini 2.5, Prompt Engineering, AI-assisted Development

PROFESSIONAL EXPERIENCE

UI/UX Design and Frontend Intern, Frookoon

Dec 2025 - Feb 2026

- Designed the complete UI/UX for Frookoon's demo web platform as part of a 4-member team, covering the full user journey: landing page, authentication, product browsing, product details, cart, checkout, and profile.
- Built the frontend using React (React.js) and TypeScript with AI-assisted development tools, applying responsive web design and design-system principles across all screens, while collaborating closely with developers to align design intent with implementation.

PROJECTS

KUCafe — Cafeteria Management System

[Live Demo](#) | [GitHub](#)

- Collaborated in a 4-member team to build KUCafe's complete frontend using React and TypeScript, covering the full ordering workflow: landing page, menu browsing, cart, checkout, and user profile.
- Owned UI/UX design and component structure, applying AI-assisted development tools to accelerate implementation, and implemented responsive layouts for consistent usability on desktop and mobile.
- Tested key user flows, including menu browsing, cart updates, and checkout, to validate functionality before final integration.

MediChain — Healthcare Management Platform

[Live Demo](#) | [GitHub](#)

- Collaborated in a 4-member team to build MediChain's frontend, a healthcare management prototype supporting patient record workflows, designing responsive screens that prioritize clarity, accessibility, and ease of use.
- Owned the overall UI/UX direction, maintaining a consistent design language and design system across all screens.

Tic-Tac-Toe Game

[GitHub](#) | [Live Demo](#)

- Independently built and shipped this project using JavaScript, applying DOM manipulation and core programming logic, with game state managed via arrays, functions, and conditional logic to track moves and determine outcomes.
- Used event handling to capture player interactions and update the Document Object Model (DOM) dynamically, applying responsive design so the game board displayed correctly across devices.

ACHIEVEMENTS AND ACTIVITIES

- SIH Internal Hackathon (BITM): 1st Prize for a team project on railway asset management.
- GDG Hubli 2K25: Top 15 finish among competing teams at the Google Developer Group (GDG) hackathon.
- Google Developers Club, Zynex Hackathon 2026: Selected in Top 25 in Round 1; participated in Round 2 (offline).
- Completed a campus-based internship in Python Programming and Green AI Skills; participated in a 2025 hackathon at BLDE College, Dharwad, prototyping a team-based solution.
